

1- Product Category: Under Cabinet Lights

2- Product Code: PVA1050

3- Product Pictures:

Throughout history, kitchen lighting has played a vital role in enhancing safety and functionality. In ancient times, open flames from oil lamps and candles provided the primary source of illumination, though often with fire hazards. The invention of the gas lamp in the 19th century marked a significant improvement in kitchen lighting, enabling more controlled and safer illumination. With the advent of electricity, electric light fixtures became commonplace in kitchens, revolutionizing cooking and food preparation. Today, modern kitchen lighting designs not only ensure safety but also contribute to the overall aesthetic and ambiance of the space.

4- Product Specifications :

PVA1050-B3

PVA1050-W4

PVA1050-S3

Lamp Power	3 watt
Working Voltage	24 V DC
Frequency	50/60 Hz
IP rate	IP20
Main Material	Aluminum
Diameter	52 mm / 2 inch
Hole Size	40 mm / 1.5 inch
Body Color	Black/White/Silver
Color Temperature	3000K / 4000K
Luminous Efficiency	90 Lm/w
CRI(ra)	90
Life Span	30000 hrs
Working Temperture	-20 +50
